<b>Extension</b>	NA
<b>Email address</b>	a.wearn@auckland.ac.nz
<b>Biography (long descriptive text) – limited to 400 words</b>	I began my academic career whilst GP training in Birmingham (UK), later working as a partner and a clinical lecturer. We moved to NZ in 2001 where I set up a clinical skills centre for the University of Auckland. The centre is used by students undertaking health professional programmes through the faculty. I am primarily involved in the design, resourcing and delivery of the early skills curriculum in MBChB. I have a range of diverse roles within MBChB and other faculty programmes, including MCLinEd.

	<p>In 2015 I took on the role of editor for the journal, Focus on Health Professional education. In the same year I was presented with a 'Choice Critics Award' by Medical Education. Between 2005 and 2014 I held positions within ANZAHPE and was scientific chair for two conferences. Away from work I dabble in painting and cooking. A perfect day would be snorkelling in clear water and walks along the beach.</p>
<b>Research (long text)</b>	<p>I have an eclectic mix of research activity which includes: qualitative and quantitative methodologies, health professional education and clinical practice. Over the last decade skills-based research has been a major focus. Much of my output has been in collaboration locally, regionally or internationally (UK, Australia, North America, Hong Kong &amp; Japan).</p> <p>Current research includes exploration of Threshold Concepts, aspects of clinical skills (particularly peer physical examination), transitions in education and training, and the impact of progress testing.</p>
<b>Teaching (long text)</b>	<p>I have been involved in undergraduate and postgraduate education for 20 years. Undergraduate teaching has mainly focussed on clinical and professional skills. In the UK, I held the inaugural Sir Sigmund Warburg Lectureship in Communication Studies. In NZ I have designed and delivered clinical skills curricula, developed assessments and contributed to the professional domain learning. Previously I co-convened the MMedSc(GP) at Birmingham University and was involved in GP Training. I am now a contributor to the Auckland MCLinEd.</p>
<b>Publications (long text)</b>	<p>60+ peer reviewed publications.</p> <p>For a sample please see:</p> <p><a href="https://unidirectory.auckland.ac.nz/people/a-wearn">https://unidirectory.auckland.ac.nz/people/a-wearn</a></p>
<b>Conferences / Lectures (long text)</b>	<p>I have contributed regularly to local and international conferences through peer-reviewed oral presentations, posters workshops and conference management.</p>
