

8th International Clinical Skills Conference, Prato Tuscany

Sunday 19th May – Wednesday 22nd May 2019

Committee Role – Sponsor Liaison, 8th International Clinical Skills Conference

Title	Dr.
First name	Kim
Surname	Blake
Job Title	Pediatrician
Institute / Division	IWK Health Centre / Dalhousie University
Address	5880\5980 University Ave. Halifax, NS B3K 6R8 Canada
Tel. No.	902-470-6499
Extension	
Email address	kblake@dal.ca
Biography (long descriptive text) – limited to 400 words	<p>Professor Kim Blake is a General Pediatrician at the IWK Health Centre and cross appointed in the Division of Medical Education at Dalhousie University Canada. She has developed the Structured Communication Adolescent Guide (SCAG). This is a validated programmatic assessment tool used to provide feedback to trainees for real Adolescent & SP patients. Her areas of expertise are: Standardized patients particularly adolescents, feedback, and assessment. She is published widely and is recognized internationally. She has been awarded the prestigious prize of the Silver Shovel for the most outstanding clinical teacher at Dalhousie Medical School on two occasions. Dr. Blake reviews for numerous medical education journals and has been rated highly for this by the AAMC and MedEdPORTAL.</p> <p>Dr. Blake's other interests are in a genetic condition called CHARGE Syndrome.</p>

	<p>She is internationally known for her dedication to individuals and families who work hard for children with CHARGE Syndrome. She has published on many of the clinical aspects of this condition and presents at the international CHARGE conferences in USA, Germany and Australia/New Zealand.</p>
Research (long text)	<p>Dr. Blake's research in medical education has been primarily to develop the Structured Communication Adolescent Guide (SCAG) which is widely available and is used both for research and teaching and assessment. It is available in Nelson's Essentials of Pediatrics, in MedEdPORTAL and is in six languages. Dr. Blake is passionate about constructive feedback and has developed many tools to help her university to deliver and produce feedback to students, residents and faculty. Her other area of interest is research in CHARGE Syndrome. Her research in CHARGE Syndrome has been ongoing for 30 years. She has completed research in many clinical aspects of CHARGE Syndrome including; post-operative airway events, sleep apnea, bone health, cranial nerve anomalies and feeding disorders. Her clinical understanding of CHARGE Syndrome has given her the ability to ask research questions that can be investigated with the Zebra Fish model. Her goal is to understand more about the cranial nerves associated with CHARGE Syndrome with respect to the cardiovascular, gastrointestinal and feeding issues.</p>
Teaching (long text)	<p>In 2017, completed the first year teaching of the skilled clinician with adult clinical skills with co-teacher, Stacy Colwell. Received excellent evaluations 2016/17.</p>
