Biography (long descriptive text) – limited to 400 words	Dr Rafidah Atan is an intensivist and professor with Faculty of Medicine, Universiti Malaya, Malaysia. She divides her time between educational responsibilities, clinical work, and research. Her main passion is teaching patient safety and non-technical skills to various groups of learners including undergraduate medical students, anaesthesia specialist trainees, anaesthetists, and nurses. She is a simulation enthusiast and uses immersive

	<p>simulation as a tool to teach patient safety and non-technical skills. A recent major undertaking is being part of a committee tasked with the setting up of medical humanities and ethics unit in the Faculty of Medicine, Universiti Malaya.</p> <p>Other areas of teaching and learning that Rafidah has been actively engaged in include evidence-based medicine and critical appraisal of literature, respiratory physiology and various workshops relating to intensive care practices. Prior to her current appointment, Rafidah was one of the pioneer staff with Monash University Malaysia from 2006 to 2020.</p>
