<b>Biography (long descriptive text) – limited to 400 words</b>	I am Clinical skills lead for the School of Medicine at Ulster. This is a new graduate

	<p>entry medical school accepting its first cohort of students in 2021. I have previously worked in medical education at the Universities of Dundee and St Andrews since 2005. Before becoming involved in medical education, my clinical background was emergency medicine, and falls interventions for the elderly. As well as leading undergraduate teaching in professional skills, I am also OSCE lead for the School. My scholarship interests are in curriculum design innovation, OSCE validity and domains of realism in simulation based healthcare education. I continue my clinical practice at the Western Health and Social Care Trust in Care of the Elderly.</p>
<p><b>Research (long text)</b></p>	<p>My areas of research interest include simulation for realistic medicine, barriers to engagement in simulation based learning, motivation for learning, novel uses of simulation in learning and teaching. I completed a Doctorate in Education in 2017.</p>
<p><b>Teaching (long text)</b></p>	<p>I am primarily involved with programme development and assessment in the undergraduate and graduate medical programmes.</p>
