<b>Biography</b>	Walter Eppich is a paediatric emergency doctor, educator, and researcher with a passion for helping teams unlock their collaborative potential and optimize their performance in high-pressure environments. He holds a PhD in Health Professions Education from Maastricht University and an Advanced Diploma in Professional Coaching. His international teaching and research focusses on how to help teams enhance performance and learn from adversity to emerge more capable, resilient, and adaptive. He studies the intersections between simulation and workplace learning and has co-authored over 120 peer-reviewed articles and book chapters. His research program seeks to delineate the contribution of workplace talk and team interactions to collaborative learning and performance.
